

## NEW VTX-7

TRIPLE CLEAN WITH **VORTEX ACTION**

*Takes the hard work out of scrubbing your pool*

*The powerful Vortex generates a vacuum that sucks up debris and creates a gentle scrubbing action to remove algae and calcium build up.*

**OPTIONAL  
AUTO SKIM  
UPGRADE**

### THE **VTX-7** DIFFERENCE

The new VTX-7 is a true Automatic Pool Cleaning Solution – simply set and forget. VTX-7's Vortex Action and Scrubbing Silicon Seal delivers a triple cleaning action to thoroughly clean your pool top, bottom and sides. With its Ultra Flex Hose and Adjustable Steering System, VTX-7 delivers maximum coverage of your pool. VTX-7 is suitable for all pool material types. Its Crisscross Cleaning Pattern is best suited to pools with curved walls.

#### **TRIPLE CLEAN WITH VORTEX ACTION**

The powerful vortex vacuum gives your pool a true top to bottom clean by sucking up sand and debris, scrubbing away calcium and algae build up, and powering the Smart-Skim to pull floating leaves and insects into the skimmer box.

#### **LARGE LEAF REMOVAL**

The Oversized Leaf Scoop captures and removes large leaves that other cleaners can't.

#### **ENTIRE POOL COVERAGE**

The Ultra Flex Hose and Adjustable Steering System create a Crisscross Cleaning Pattern to allow the VTX-7 to move freely and optimise coverage.

#### **UNBEATABLE WARRANTIES**

VTX-7 is built to last. It's covered by a massive 10-year Warranty on the Flow Drive – its single moving part, and a 2-year Full System Warranty. Plus, you have the back up of local service and support.

### UPGRADE TO **AUTO SKIM** WITH COMBINED VACUUM PLATE

Make pool maintenance even easier on yourself and upgrade to Kreepy Krauly's ultra-efficient Auto Skim. It not only whisks away surface debris like leaves and bugs, it ensures optimum performance of your cleaner at all times. With no fiddly valves or need for constant intervention and setting, it is truly a set and forget surface automatic cleaning option.
