

HOW TO WEAR THE MIRACLE SCARF

Beanie

Hairband

Bandana

Scrunchie

Headband

Balaclava

Facemask

Neck Sock

Beanie - Turn scarf inside out, slip one end of the scarf over your head to ear level. Take the top of the scarf and twist fully twice and pull down over your head.

Bandana - Turn scarf inside out. Slip your right arm through the tube and your left arm through the opposite end. Grab both ends and pull outwards while twisting to make a knot in the middle. Place on your head and adjust accordingly.

Balaclava - Slip the scarf over your head so that it sits around your neck. Take the top of the scarf at the back and pull up and over your head, keeping the front of the scarf sitting under your chin.

Facemask - Slip the scarf over your head so that it sits around your neck. Take the top of the scarf at the front and pull up and over your mouth, nose and ears.

Neck Sock - Slip the scarf over your head so that it sits around your neck (wet to use as a cooler - immerse in cold water or put in freezer for maximum effect).

Helmet Liner - Turn scarf inside out and lay the scarf on top of your head with one end sitting above the forehead. Take the top of the front of the scarf and pull backwards over your head while holding the bottom layer.

Head Scarf/Tube - Put scarf on as hairband. Pull the back of the scarf downwards to cover head and hair to make a long tube with hair inside.

You can also wear as a **wristband** and **blindfold**.
